Portfolio: mrkasper.vercel.app

GitHub: @mr-kasper

LinkedIn: @rachid-saadi-a704482b3

Innovative Full Stack Developer with 2+ years of experience transforming complex requirements into clean, high-performance digital products. Leveraging hands-on experience with React frontends and NestJS/Laravel backends, I champion a user-centric approach, robust architectural design, and rapid delivery of impactful code for scalable systems and pixel-perfect interfaces.

EDUCATION

University Diploma of Technology in Computer Engineering | 2022 – 2024 High School of Technology, Agadir, Morocco

Baccalaureate in Mathematics Science | 2019 – 2022 Aljoulane High School, Biougra, Morocco

PROFESSIONAL EXPERIENCE

Full Stack Developer – End of Studies Internship

April 2024 - June 2024

Driven School Agadir, Morocco

- Built an attendance tracking platform with React/Redux, improving UI responsiveness by 40% through state management optimizations.
- Developed Laravel backend services, reducing API latency by 30% with MySQL query optimization. Achieved 100% test coverage using Cypress, resolving 100+ pre-deployment bugs.
- Collaborated with cross-functional teams to gather requirements and deliver a pixel-perfect UI/UX.

Odoo Developer – Internship

July 2023 - August 2023

LeanSoft Agadir, Morocco

- Contributed to the design and development of a red fruit farm management system using Odoo, enabling real-time monitoring and operational efficiency.
- Streamlined daily project progress tracking and proactively eliminated bottlenecks to meet tight deadlines.
- Reviewed code collaboratively and championed code quality best practices across the dev team.

TECHNICAL SKILLS

Frontend Development:

React, Next.js, JavaScript, TypeScript, Tailwind CSS, Bootstrap, SCSS, Redux, Cypress

Backend Development:

Node.js, NestJS, PHP, Laravel, GraphQL, REST APIs

Databases & ORMs:

MySQL, PostgreSQL, Prisma, Drizzle

DevOps & Tools:

Git, GitHub, CI/CD, VS Code, Postman

Core Competencies:

Scalable architecture, responsive design, API integration, cross-functional teamwork, agile development

Languages:

Arabic (native), English (fluent), French (fluent)

PROJECTS

Prepwise – AI-Powered Job Interview Platform – Next.js, Firebase, Google Gemini, Vapi AI

Built a real-time AI voice interview tool with **80% accuracy** in feedback analysis, used by **10+ beta testers**.

Parity Deals Clone – Regional Pricing App – Next.js, Clerk, Stripe, Drizzle ORM

Implemented dynamic dashboards and regional pricing, increasing user retention by **35%**.

Computer Repair Shop Management – Next.js, Neon, Drizzle

Reduced support resolution time by **35%** with role-based access and automated ticket routing.

Real-Time Chat App (WhatsApp Clone) – Next.js, Convex, Zegocloud

Supported **1k+ concurrent users** with WebSocket integration and video/audio APIs.

Storage & File Sharing Platform – Next.js, Appwrite

Developed a secure, user-friendly file management system with real-time storage insights and seamless file sharing.
